Title

Conceptual Approval of Cooperative Lease Agreement - Port St. Lucie Elementary School Site (Revised)

Description

The School District has had a collaborative agreement with the Agricultural and Labor Program, Inc. (ALPI) for about 3 decades. By this agreement, the School Board has provided a location for ALPI to place its modular building that provides an early learning center for pre-kindergarten students.

Currently, ALPI has a facility at Village Green Environmental Studies School (VGESS) that services about 60 students. They also have a rental facility at 1420 SE Westmoreland Boulevard, Port St. Lucie, FL 34952 in the Club Med area. ALPI only has two facilities in Port St. Lucie and they both are located on the east side of the City and are not centrally located to serve all of Port St. Lucie. The Facility at VGESS has some operational issues that have caused concerns for the school. The District has explored solutions to the operational concerns and recognized another campus location could provide better service to the families in Port St. Lucie.

In 2009, Port St. Lucie Elementary School (PSLE) was closed. The main building of that school was demolished because it was beyond its useful life. That campus currently has a cafeteria, 10 modular classroom wing, and 6 portable classrooms. The 6 portable classrooms and cafeteria are operational. The 10 modular classroom wing has an air-conditioning system that requires a chiller. The chiller plant was demolished as part of the work in 2009. In order to use the wing, a new chiller or different type of air-conditioning unit must be installed. The cost to do this work is approximately \$360,000.

Staff has presented the opportunity to ALPI to utilize the classroom buildings at the PSLE site. ALPI has indicated they would like to proceed with a lease for the site. This would allow them to expand services in an economical manner to families in Port St. Lucie.

Staff has had a variety of discussions pertaining to the remainder of the property - Port St. Lucie Parks and Recreation Department has expressed interest in maintaining and using the athletic fields adjacent to Sportsman Park. This would allow the City to expand the T-ball program. The Boys and Girls Club (B&GC) has also expressed interest in using the cafeteria for a Boys and Girls Club Clubhouse. This program is similar to an after-care program that allows a much reduced rate for families. Students can become a member of the clubhouse for an annual cost of \$10 or \$20. The normal after care program at B&GC is about \$35-\$50 per week. The B&GC is seeking private/grant funding to operate another clubhouse in St. Lucie County. A B&GC clubhouse at the site would again enhance child development opportunities in the area.

This would allow the school district to:

- Solve the operational issues at VGESS.
- Eliminate any operational expenses for maintaining the PSLE school site.
- Cost avoidance of the capital expenses.

Recommendation

The Superintendent is recommending the Board approve a conceptual use for the facility and direct staff to negotiate lease agreements with ALPI, the City of Port St. Lucie, and the Boys' and Girls' Club of St. Lucie County.

Financial Impact

No direct cost to the District. The proposed use will provide a cost avoidance of about \$ 20,000 per year to maintain and provide utilities to the site. It will also provide approximately \$360,000 capital investment by the lease that will benefit the District facility.
