Volunteers in Public Schools Code of Ethics

As members of a movement to improve and enrich the lives of our children, volunteers have a challenging role to play. Here are some guidelines to help;

“Volunteers never replace the teacher.” Volunteers will work directly or indirectly with students, and offer a supplementary service provide motivation to develop a student's receptivity to learning and help the student acquire a better self-image.

School staff and teachers will decide the specific tasks that need to be performed and provide the information and materials volunteers will need.

Respect and understanding for each student as a person are the most important ingredients in working effectively as a volunteer. Self-esteem and self-confidence are basic to learning.

Teachers are in charge of the instruction and the discipline of each student. The volunteers is to guide and encourage the student along the path the teacher has chosen. The personal interest a volunteer shows may be the catalyst that makes a student recognize his/her own worth and ability to achieve.

Volunteers will consider any information about the students privileged, and to be held in the strictest confidence.

Volunteers are asked to support the basic aims of education by:

- Maintaining consistent and regular attendance.
- Following all regulations and procedures of the school and the district.
- Discussing school problems with staff members at appropriate times.
- Observing discretion in commenting on school matters.

The way we communicate with children affects all aspects of their personal growth. The tone of our voice, our body language, and the words we choose makes an impact on how their self-esteem may develop. We, as early childhood educators and caregivers need to use language of respect whenever interacting with children. It is vital that we never shame, insult, belittle, discourage, or label children, their feelings, decisions they make, or acts they may choose.

The commitment volunteers make to our students is a significant one. As they participate in school activities, volunteers are looked to as role models. Therefore, it is imperative that volunteers conduct themselves in a correct and responsible manner, thereby making the

“Volunteers in Public Schools” program a complete success.

1. Safeguarding our students and maintaining campus security
2. Following School board policy calls for sign in procedure.
3. Locating a volunteer in case of an emergency telephone call
4. **Providing insurance coverage for volunteers while volunteering at school for a specific purpose (Volunteers are not covered if they have not completed a volunteer application or did not sign in when visiting the school.)**
5. Verifying volunteer service as work experience.
6. Recognizing volunteers for their dedication and service to our schools.
7. Qualifying for the Florida Department of Education Golden School Award by demonstrating twice as many volunteer hours as student enrolled.

General Volunteer Procedures

1. Each year volunteers must apply online by completing the most recent volunteer posting and submitting it to Human Resources.
2. Volunteers must always work under the supervision of a district employee, and are never to meet a child alone.
3. Volunteers agree to practice the “*No Touch*” policy at St. Lucie Public school sites and on school field trips. Praise and encouragement are the approved methods to demonstrate care and respect. All Students and parents should adhere to the school’s dress code unless otherwise indicated.

4. Volunteers should be reminded to wear an identification badge every time they are on school campus.
5. If a volunteer is going to be absent for a scheduled activity, or if a community resource volunteer is unable to speak at the agreed time, the volunteer should call the school and ask that the teacher and/or student be informed of his or her absence.
6. Volunteers should be prompt; due to scheduling requirements, it is important to make every minute count.
7. Volunteers are asked to commit to only the time that they can realistically expect to fulfill because teachers will plan for them, and students will be dependent upon them.
8. Once the volunteer receives his/her assignment from the school volunteer coordinator, the volunteer should meet with the teacher sometime when the teacher does not have students in the classroom. This will provide an opportunity to discuss the assignment, learn about procedures, etc. Volunteers should be encouraged to set up additional meetings, if necessary, to get further instructions, discuss a problem, and learn about materials.
9. The teacher is in charge of the classroom at all times and the teacher will provide any discipline that is required.
10. Volunteers are expected to maintain strict confidentiality with information to which they have access while performing their duties.
11. When they have questions about policies and procedures, volunteers should follow the proper channels within the school, and ask the appropriate person: the teacher, the principal, or the school volunteer coordinator.
12. **Parents are not placed in their child's classroom on a regular basis.** (School Board Policy 3.80 – only at the request of the teacher and the approval of the principal).
13. No alumni under the age of 21 permitted on campus during regular school hours.
14. Once assigned, volunteers will go to the area or class - never wander around campus or disrupt instructional time.

Background Checks

- All volunteers are **required** to have a background check/security screening every year. This includes the following:
- a. "All" school site volunteers
 - b. "Overnight" field trip chaperones. (Overnight field trip chaperones must be fingerprinted through Fieldprint at your own expense. District authorization must be obtained prior to issuance of clearance).

 - * Limited use of cell phones while chaperoning is greatly appreciated
 - * No picture taking of students allowed without prior parent approval
3. Volunteers who are **sponsored by an agency** are screened through that agency (i.e. Big Brothers/Big Sisters, SOAR, etc.)

Counting Volunteer Hours

Each school is unique in its composite of parental involvement, business support and community interaction. All schools are to be commended for its ongoing commitment to find creative strategies to recruit, maintain and maximize these resources to the benefit of its students and teachers.

The true measure of a school's volunteer program cannot be reflected solely by the number of hours amassed; however, consistent collection of this data is important as documentation for:

- A baseline measure of each school's individual success in recruitment and retention efforts
- School Improvement Plan benchmarks
- Local effort in matching grant applications
- Recognition

To ensure the consistent reporting of volunteer hours, please adhere to the following criteria:

1. **Orientations** must be completed on a group or individual basis for all volunteers.
2. **Student/Youth Volunteer** hours are counted only for time spent before or after school, lunch and recess periods; activities during school hours are not counted. **Only hours directed on activities performed to benefit the school or its students may be counted.**
3. **Student Safety Patrol** hours are counted.
4. **Teacher volunteer** hours are not counted if it is a job-related activity, or if there is compensation of any kind.
5. **Faculty orientation on volunteer services** – a minimum of **80%** of the school staff must participate in training related to school volunteerism, as a criterion for the *Golden School Award*
6. **Administrators** may not count volunteer hours if time served is at their own school.
7. **PTO/PTA and SAC** meetings are counted for those parents/volunteers who have completed a volunteer application.

8. **Volunteering off school campus**, such as fundraising, preparing classroom material, telephoning, etc. are counted.

9. **Field trip chaperones** are counted for the entire period of a trip, including overnight sleep time.
10. **Students in clubs and organizations** may count the hours for the specific activities that directly benefit the school (i.e. school homework assistance, campus beautification, fund-raising to purchase equipment/materials for the school, etc.)
11. **Band and sports booster clubs** may count all their hours in service to the club.
12. **High school and college student** who work with students and assist in a school may be counted as a volunteer even if they are performing this service as a requirement for a course that he/she is taking. *The only exception to this is the education major who is doing his/her internship, during which time the student teacher is actually teaching a class and is at the school all day/every day.* This does not count as volunteer time.

The overwhelming majority of volunteers generously give their time and talents, with little regard to their own personal recognition. Their greatest reward is in knowing that they are making a positive difference for our students and teachers. With that, many volunteers don't realize the importance of recording their volunteer hours. **Please request that the teachers and staff members who work directly with volunteers, remind their volunteers to record their hours.**

For obvious reasons of security and liability, every visitor, including volunteers, who come on school campus, is required to sign in at the front office. For convenience to the volunteers, keeping a volunteer logbook in the front office by the sign in sheet would be a helpful reminder.

School-based Volunteer Coordinator (s)

Many schools have the benefit of hundreds of volunteers who are willing to contribute thousands of hours of invaluable time. This requires a tremendous coordination between service offered and services needed. It is suggested that each school have at least one person who is designated as the school's Volunteer Coordinator. This person **must** be a current fulltime employee.

A calendar of events will be distributed to each Volunteer Coordinator.

Mentor: Agency Programs

A mentor works with a student or students on an individual or small group basis for ½ to 1 hour per week for the purpose of increasing academic success. A mentor can provide reinforcement, assistance in goal development, and serve as a role model to students who may have been identified as at-risk. A mentor may also work with a student who has a special interest or unique talent on a special project. School-based mentoring is limited to the school or designated mentor site, under the supervision of a district employee.
