

Strategic Goal 2: 100% of St. Lucie County Schools will have a Multi-Tiered System of Supports (MTSS) to address the academic and behavior needs of all students.

Identified Target Supported: All schools will meet or exceed School Improvement Plan objectives

Resources Available to Support the Goal

- PBIS – model schools and trainers
- District office staff highly trained in MTSS process
- CHAMPS (trainers and model classrooms)
- District Leadership Team led by USF to oversee the PBIS Project for SLCPS
- State and Federal Laws as means of getting kids identified to receive services
- Instructional framework planning for the engagement of all students
- Kids at Hope (some model programs and highly trained staff)
- Data-rich with the ability to look at every single child
- Attitudes to support student services and success
- Use of charters and work groups already in place and focusing on MTSS, Mental Health, and Alt. Ed.
- Skyward Module to track interventions and provide reports for Early Warning of potential concerns with Academics, Attendance, and Discipline
- Collaboration between divisions at the district level to plan and implement effective RtI-A and RtI-B processes for a Multi-Tiered System of Supports

Targeted Barriers to Achieving the Goal

- Lack of common understanding of MTSS district-wide resulting in inconsistent expectations
- Ineffectiveness at Tier 1
