

**St. Lucie Public Schools
SCHOOL HEALTH SERVICES
HEALTH RECORD REQUIREMENT LETTER**

STUDENT	DOB	SCHOOL	GRADE	TEACHER	DATE
---------	-----	--------	-------	---------	------

Dear Parent/Guardian:

Florida law requires that all students entering and attending public and private schools have a physical exam and be immunized against the following diseases at designated grade levels: diphtheria, pertussis, tetanus, polio, measles, mumps, rubella, hepatitis B and varicella (chicken pox). A review of your child's school health record indicates that the following immunization dates are needed. The immunization dates circled are needed in order to complete your child's required immunizations.

DTP/DTaP/DT	dose #	1	2	3	4	5			
Td/Tdap	dose#	1	2	3					
Polio	dose#	1	2	3	4	5			
MMR	dose#	1	2				Measles dose#	1	2
Mumps	dose#	1	2				Rubella dose#	1	2
Hepatitis B	dose#	1	2	3					
Varicella	dose#	1	2	(or documentation of chicken pox disease date needed)					

Health records for the above named student are incomplete for the following indicated reasons:

- The temporary medical exemption expires/expired on ___/___/___
- No immunization dates were found in file **or** No DH 680 form is on file
- The immunization certificate (DH 680) is not signed/stamped
- The last dose of DTP/DTaP or Polio was given before your child was 4 years old
- There is less than 6 months between DTP series date(s) and the booster date(s)
- Tdap booster date is required if none received in past 5 years- (grade 7-12)
- Two doses of measles (MMR) vaccine are required- (K-12)
- First dose of MMR was given before your child was 12 months old
- Three doses Hepatitis B required (two doses if Merck adolescence vaccine used)
- Permanent Medical Exemption (obtained from your health care provider) is necessary to document a medical reason for any vaccine that is omitted from required immunizations.
- Religious Exemption certificate is required if your religious tenets require no immunizations. This certificate is available at the St. Lucie County Health Department.
- There is no physical examination on file **or** exam was done more than 12 months prior to date of initial entry into school **or** written statement for religious exemption is needed.
- The physical examination form on file has not been signed and/or dated by a licensed health professional
- An additional varicella date is needed to meet grade requirement.

In order for your child to remain in school, you must provide official medical documentation of the indicated vaccines/disease date and/or physical examination no later than _____. Please take this letter with your child to your health care provider to assist with completion of the requirement(s). If you have questions or need further information, please contact the school clinic at _____.

Thank you,
