

Parent Notification of Intervention Support

School: _____

Today's Date: _____

Dear Parent(s):

Federal & State laws have directed schools to meet the needs of all students by addressing deficiencies before a student falls too far behind their grade level peers. To do this, we implement a multi-tiered system of student supports that are matched to student need as determined through academic, behavior, vision, and/or hearing screenings, as well as classroom performance.

These multi-tiered supports provide high quality instruction & early interventions in academics and behavior. Frequent monitoring of student progress determines effectiveness and guides our instruction.

Our school's Problem-Solving Team met and is recommending that your child, _____ be **enrolled** in the following intervention:

Intervention:

Target Skill:

Your child will be receiving ____ minutes of evidence-based instruction ____ days per week to remediate the targeted skill mentioned above. We will be monitoring your child's progress frequently. As a component of ongoing progress monitoring, we may administer additional academic and/or behavioral screenings to further refine the interventions. As always, your involvement in your child's education is important. Please contact me or an administrator if you have questions.

Sincerely,

Your child's teacher on behalf of the
Problem Solving Team
