School Date Grade

To the Parent or Guardian of:

\_\_\_\_\_ / \_\_\_\_ / \_\_\_\_  
Student Name DOB

Florida law requires that all children entering and attending public and private schools have a physical exam and be vaccinated against various diseases at designated grade levels. Immunizations must be on a Florida 680 Form or transferred using the \*FASTER system. The 30 day exemption for these records to be transferred from your child's school in a previous Florida county has expired for the following reason(s):

**School Entry Health Examination**

- School records from his/her previous school arrived and no physical was transferred in the records or on the \*FASTER record.
- School records from his/her previous school arrived and the physical does not meet Florida requirements.
- No records were received from the previous school and the 30 day exemption has expired.

Your child will be temporarily excluded from school unless you provide the school with a physical exam by \_\_\_\_/\_\_\_\_/\_\_\_\_.

**Immunization Records**

- School records from his/her previous school arrived and no immunization record was included or the immunization dates were not included on the \*FASTER record.
- Immunizations are not compliant with Florida State grade/age requirements. The following shots are missing from your child's record:  
DTaP \_\_\_\_ Tdap \_\_\_\_ MMR \_\_\_\_ Varicella \_\_\_\_ Polio \_\_\_\_ HepB \_\_\_\_
- No records were received from the previous school and the 30 day exemption has expired.

Your child will be temporarily excluded from school unless you provide the school with immunization records on a Florida 680 Form by \_\_\_\_/\_\_\_\_/\_\_\_\_.
