

New Employee Orientation Dates

2018-2019 School Year

New Employee Orientation dates throughout the year are established to provide employees **who are hired each month** with an orientation to assist them with the tools and knowledge they need to get started in their new position. **New TEACHERS attend a full day session; New NON-INSTRUCTIONAL staff attend the afternoon session only.** Induction is most beneficial when it begins as close to the employee's start date as possible so employees begin to feel some control over the expectations of their new role. Attending the afternoon session in a timely manner is important for all employees so that they are in a position to make informed decisions about benefits within the limited enrollment window and have a clear understanding of District policies and procedures.
