All prices quoted for fixed fee shall include all costs (except the milk pricing and factors such as over order premiums and processor assessments), including flavorings, containers and profits for the delivery to individual

school storage locations, neatly stacked in refrigerated boxes. Fixed fees should be added to the milk cost to determine selling price (Total Price) of milk delivered to the schools. Fixed fee prices must remain firm and fixed for the initial term of the contract. Upon each renewal, fixed fees may be adjusted. The bidder may submit a price increase in writing in accordance with the current Consumer Price Index (CPI). Alternatively, if there is a price decrease, bidder should notify Purchasing in writing. The School District reserves the right to accept or reject the price increase and may choose to use the next lowest bidder if deemed to be in the best interest of the School District.

Prices for Item 1 (milk fat cost) should be based on Monthly Florida Cooperative Price Announcement.

The conditions for bidding milk fat cost plus prices are as follows: if a vendor's price for milk fat increases or decreases by \$0.10 per hundred weight, thereby increasing/or decreasing the cost of said milk \$.00054 per half pint, the School Board will adjust the price of school milk paid to the school milk contractor to conform to the above. Proof of price increases or decreases shall be based on the Vendor's Monthly Florida Cooperative Price Announcement. This publication shall be mailed to the Food Service Department each month showing price changes.

The milk contractor shall give written notification to the School Board each month that a change upward or downwards has taken place and shall include the contractor's calculation used in determining the change in price per half pint of milk. The \$.00054 per half pint adjustment shall be effective with the beginning of the next monthly report period, and must include the full cost difference from the previous month's price of Class 1 milk. Splitting of price adjustments to carryover to future months will be allowed. If the milk contractor fails to properly notify the School Board of any such price decrease which would result in a decrease in the contract price of milk, the School Board will make an appropriate reduction in price, effective with the date such reduction should have been made had the contractor given prior notice or take such other action as is appropriate to give the School Board the advantage of such reduction.

Pricing may decrease or increase monthly using an escalator/de-escalator in the cost of raw materials (butterfat and skim) as announced by the USDA Agricultural Service. The successful bidder must notify the Child Nutrition Services by the 28th of each month with the price changes.

The School Board of St. Lucie County has implemented an **Electronic Purchase Order (E-PO)** delivery system to streamline our procurement process and eliminate a paper-driven process. In order to expedite delivery of purchase orders, we ask that you provide our office with a designated email address. The email address you provide should have the capability of being monitored by more than one person within your company. This will ensure that orders received electronically are not delayed. ATTACHMENT M - BUY AMERICAN CERTIFICATION

To the Vendors

By the requirements of the Richard B. Russell National School Lunch Act's (NSLA) Buy American provision that school food authorities (SFAs) must follow these guidelines when purchasing food and food products for use in the Child Nutrition Programs. Section 104(d) of the William F. Goodling Child Nutrition Reauthorization Act of 1998 (Public Law 105-336) added a new provision, Section 12(n) of the NSLA (42 USC 1760(n)), requiring SFAs to purchase domestically grown and processed foods, to the maximum extent practicable. Section 12(n) of the NSLA defines "domestic commodity or product" as one that is produced and processed in the United States substantially using agricultural commodities that are produced in the United States. The legislation notes that "substantially" means that over 51% of the final processed product consists of agricultural commodities that were grown domestically. There is two situations which may warrant a waiver to permit purchases of foreign food products include: 1) the product is not produced or manufactured in the U.S. in sufficient and reasonable available quantities of a satisfactory quality; and 2) competitive bids reveal the costs of a U.S. product is significantly higher than the foreign product. Definition of end products is a two-part test to define end product: (1) the product must be manufactured in the United States; and (2) the cost of domestic components must exceed 50 percent of the cost of all the components. On behalf of St Lucie County School District we require that suppliers certify the percentage of U.S. content in products supplied to us. If you are unable or unwilling to make such certification, we will not be able to purchase products from you.

Please complete one form per product.

We certify that our _____ (product name)
_____ (manufacturer name)
has at least _____% U.S. content.

**EXAMPLE: We certify that our _CORN_ (product name)
GREEN GIANT (manufacturer name)
has at least _82_% U.S. content.**
